PITAMBER RANEESH JOGA

has successfully completed the online Specialization

DevOps Mastery

The DevOps Mastery Specialization is perfect for aspiring DevOps professionals and IT enthusiasts. It covers 8 essential courses: DevOps prerequisites, Git, Jenkins, Docker, Kubernetes, Ansible, Terraform, and Python. You'll gain hands-on experience automating, managing, and optimizing IT infrastructure. The specialization is designed to progressively build your skills, with each course building on the previous one. By the end, you'll be ready for DevOps roles like DevOps Engineer or SRE, equipped with practical skills and real-world projects to advance your career in DevOps.
